This information is to be kept current by prompt notification to the Commission of any changes until the report for the succeeding year has been submitted.

1. This schedule shall be filed annually on March 31 of each calendar year for the results of the preceding calendar year.
2. In the spaces provided, respondents shall enter the company name and the year representing the last month and year covered in the report.
3. This schedule consists of 1 page.
4. In column (b) provide for each state or territory the total number of Central Office Switches. If more than one switch is housed in a single building or structure be sure to count each switch separately. Do not separately count each three digit telephone number prefix as a separate switch.
5. Where ISDN services are provided, use column (c) to show for 16 kb/sec control channels the number of such channels divided by 4. For similar services, provide the total number of control channels and indicate types included. Use a foot note if necessary.
6. In column (d) provide the number of 64kb/s or equivalent access lines or ISDN B channels where applicable. Do not include access lines connecting to a customer location PBX or Centrex.
7. In column (e) provide the number of analog 4khz access lines connecting to single or multi-line telephones.
8. In column (f) provide the number multiplied by 24 of DS-1 access lines (1.544 mb/s) connecting to a customer location PBX and/or Centrex.
9. In column (g) provide the number of equivalent 4khz analog circuits or trunks connecting to a customer location PBX or Centrex.
10. In column (h) provide the number of equivalent 4khz extension circuits connecting a Centrex or PBX on telephone company premises to telephones on the customer's premises.
11. In column (i) provide, in terms of equivalent 4khz Analog Circuits of 64kb/s data circuits, the number of other switched access lines not included in columns (c) - (h), and indicate the types in a footnote.

2. In the spaces provided, respondents shall enter the company name and the year representing the last month and year covered in the report.
3. This schedule consists of 1 page.
4. If data are not available as to the location of all access lines by states, the returns may be made in accordance with the location of the central office toll center through which the calls originate.
5. The numbers shown may be based on an actual count taken periodically during the year. Describe in a note the general characteristics of the methods employed in arriving at the numbers shown.
6. As used in the schedule, a "local call" means one between points both of which are within the local service area of the calling telephone, and a "toll call" means one to a point outside of the local service area of the calling telephone. Interlata toll calls are comprised of calls directed to interexchange carriers. Interlata toll calls are toll call handled by a local operating company within a given LATA. The number of toll calls should be based upon originating message volumes.
7. Include any Intralata-Interstate toll calls in column (c).
8. Billed minutes should be based on bills sent to customers. For calls where this data is unavailable, a statistically valid calculation may be made.
9. In column (d), the number of interstate toll calls includes outward calls, 800 service, directory service and dial-it service.
10. In column (f), the number of intrastate toll calls includes outward calls, 800 service, directory service, dial-it service, and optional calling plans.
